

Nippon Forces Are Moving Out Shuri Fortress

Continued from Page One
Have a number of Japanese troops been put out of action, but that the enemy is running short of ammunition.

Although the Japanese are still fighting hard and putting up desperate resistance in an effort to hold the new line until troops can dig in on high ground south of the Kokuba river, it is doubtful whether they can hold there.

The American command is coming down the east coast and threatening to outflank the new line secured a 300-foot escarpment overlooking the beaches of Southern Okinawa after killing over 2,000 Japanese in a three-day battle, and then smashed on another 2,500 on the Ogigushi, two and half miles south of Yonabaru.

On the west coast the Marines of the 4th Division drove another 800 yards through the rubble of Naha, capital of Okinawa, and then bridged across the Asato river inside the city almost to the shores of the East China Sea.

The Marines also threw a fifth bridgehead across the river and poured reinforcements of men, guns, tanks and supplies into the heart of the capital.

BOMBARD TROOPS

Battlehips, cruisers and smaller naval units are bombarding the Japanese troop concentrations and army plans made low level attacks on Saturday and Sunday, while heavy bombers also assisted.

Four inches of rain fell Saturday and tropical rains have continued to pour down to a morose of the weather has given the Japanese more trouble and has forced them to blow up caves and guns and supplies which they cannot move in the rain.

The rain and mud may delay the Japanese moving up a few days, but the end is certain said a divisional staff officer here this morning. "We will take Okinawa in the next few days and every Japanese on this island will either be dead or a prisoner."

On the east flank of the advance, the 1st Marine Division, U.S. 7th Infantry division has captured the bulk of the food, ammunition and equipment stores. The enemy in that sector before it could be destroyed.

To Open School Red Deer's Army Training Centre

Continued from Page One
mechanics will be provided. Training is without cost to the veterans.

Wives of the veterans attending the school may also be taught home economics at the Red Deer centre. There will be accommodation for 300 women students.

TO SHARE COST

Costs for the program will be shared 50-50 between the dominion and province.

The provincial department of agriculture is co-operating with federal authorities in organizing the course.

Granting of credits in apprenticeship training to men with trade experience in the armed forces, was also discussed.

Training of persons discharged from war industries for other pursuits was also discussed.

There has been a further appropriation of \$200,000 for such training programs to be undertaken on a 75-25 per cent basis with the dominion taking the larger share of the cost.

Capture Nazis' Chancellery Head

PARIS, May 28.—(AP)—Adolf Hitler's chancellery head, Dr. Paul Goebbels, was captured by the United States 7th Army at Fincken Castle near Zell on May 27.

Dumb & Bells

YOU SAY YOU HAD TO GO FIVE DAYS WITHOUT YOUR M... WEREN'T YOU THIRSTY

WHY OKINAWA GAINS ARE MEASURED IN YARDS—You don't measure gains on Okinawa in miles; you get down to bitterly-contested yards, feet and inches. Reason is the intricate system of pillboxes and caves set up on every ridge in the southern section of the island. Fanatical Japs, holding out to the last man, must be exterminated as they are shown above, while soldiers of the U.S. Tenth Army's 27th Division stand outside a pillbox with rifles ready. One of them prepares to toss in another grenade, after previous blast had blown out the Japs whose bodies lie before entrance to tomb used as pillbox.

General Clash Feared Near in Syria Trouble

Continued from Page One
rising throughout Syria and perhaps Lebanon.

The French, about 2,000, have machine-guns, mortars, two batteries of light artillery, 10 light tanks and 10 armor cars. They have three planes, variously described as old German Junkers and lend-lease B-25 bombers.

The Syrians have 1,200 police and gendarmes armed with rifles, pistols, machine-guns, mortars and a heavy-armed popular of 300,000 at Damascus.

CAUSE OF CRISIS

The crisis began when the Syrians accused the French government of trying to apply force to Latin concessions. The French who recognize the independence of Syria and Lebanon but insist upon the right to have a link to the Far East issued an official statement in Paris last night expressing regret that the government of the two Middle East countries had used the arrival of Senegalese troops as a reason for breaking off negotiations. The troops, the French asserted, actually were en route to the Orient.

Vets Protest War Prisoners City Hospital

Continued from Page One
low cost housing scheme for housing families with low incomes, was passed.

This resolution, originally passed by the Ex-Servicemen's Rehabilitation Association, calls for construction of homes that will rent or sell for monthly payments of from \$20 to \$30.

Another resolution approved calls for the immediate inauguration of a vast program of re-education of ex-servicemen.

Plans for the new club rooms of the association in the Churchill block former Jackson Block, were studied and discussed.

AFTER VACATION

"The association will not occupy the premises until after it has been vacated by the Edmonton Wings club."

President Harry Ross was in the chair and it was the last general meeting of the Edmonton unit before the summer vacation.

Patrick M. Asby, Social Credit candidate in Edmonton East in the federal election, who is a member of the Army and Navy Veterans Association, gave a short talk.

Find Explosives Hidden by Nazis

IN BAVARIA ALPS, May 28.—(Reuters)—Soldiers of the British 15th Army have discovered and explosive dumps to be used by the Germans in the event of a surprise attack in the area.

The dumps were hidden in a cave underground war was discovered in the forests and mountains of Bavaria and Bohemia by Allied intelligence officers.

Quisling Trial Set For August

NEW YORK, May 28.—The trial of Vidkun Quisling was set for August 25 at a preliminary hearing held in Oslo, an NBC broadcast from Norway said.

FUNNY BUSINESS

"Here comes Joe—he's late again from shore leave!"

Health Plans Are Outlined By Minister

OTTAWA, May 28.—(CP)—Working on a 12-day plan, health authorities continue to work together in peace to give the people the best health service possible. When the health services are ready, the Canadian people shall be the healthiest in the world," Health Minister Cline said today outlining his department's health proposals in an address prepared for delivery to the Dominion Health Council.

The proposals were: 1. Comprehensive health insurance—to provide medical, surgical, obstetrical, dental, pharmaceutical, hospital and nursing benefits for all Canadians.

PREVENTIVE MEASURES

2. Preventive health measures—to aid in providing free treatment for tuberculosis, mental illness, venereal diseases, and in the training of public health physicians, engineers, nurses and sanitary inspectors; to assist in public health research and the prevention of disease by creating conditions in the children.

3. Extension of pensions to the blind dependent on the age of 21 and assistance in treatment and care.

GERMANS FACE Food Shortage

U.S. 15TH ARMY HEADQUARTERS, May 28.—(AP)—The serious food situation facing the German people was emphasized today by an official 15th Army news release stating that there were not sufficient supplies of food to feed the population "possibly through the month of June."

Military government officers believe that the collection, distribution and provision of the minimum food required for civilians is now the most critical problem in occupied Germany, the statement said.

Contributing to the situation, it added, is the fact that "displaced persons have been largely supplied with food from German stocks rather than from imports."

"As a result," the statement added, "surplus food stocks no longer exist in any substantial quantities."

Hunger in Europe Alarming Problem For Peace Body

SAN FRANCISCO, May 28.—(AP)—Hunger in war-torn Europe is mounting the United Nations conference, and has posed an alarming problem for the architects of peace.

Ruggeri, Italian's aid minister, mentioned officially, but delegates say the future of the new league depends on how hunger is relieved in liberated countries. They argue that the future permanent peace depends on the restoration of reasonable standards of living and employment.

"No government in liberated Europe can survive," explained a Belgian diplomat. "If the people are allowed to go hungry, only governments which relieve that hunger can live."

Ends Own Life

NEW YORK, May 28.—(CP)—The jury said last night that Dr. Hugo J. Gaudelot of lower Austria and former minister of social welfare in the 300-1000 government of Austria, "has chosen suicide rather than captivity or trial." The broadcast, recorded by CBS and NBC, said the report came from the Austrian radio.

Admired "Strong Nerves" Hitler Respected Stalin But Didn't "Like Him"

By JACK FLEISCHER
Exclusive to The Edmonton Bulletin.
BERCHESGADEN, May 28.—(BUP)—Adolf Hitler respected Stalin, but he certainly didn't like him, the Führer's short-hand reporters said today.

When the Russian Army would score another victory over the Wehrmacht, Hitler would rant: "That old schwein put it over again. That fellow has strong nerves."

Schwein means pig.

Gerhard Hergenhahn and other official shorthand reporters from Hitler's headquarters said that Hitler never wanted to meet Stalin, even when Germany and Russia had diplomatic relations with each other.

Hitler reportedly often said that if it hadn't been for Stalin "Russia would have been finished in 1941." Contrarily, Hitler believed until April 22 when he finally admitted that the war was lost, that he still could beat Russia.

The stringers said that at least three times a day in the weeks before the Russian final offensive, Hitler said: "It is my boldest conviction that the Russians will suffer the greatest defeat in history on the Oder."

Controversy Over Carinthia Renewed

LONDON, May 28.—(AP)—The controversy over the Austrian province of Carinthia threatened to flare up again today, after a statement attributed to Marshal Tito of Yugoslavia by the Belgrade radio, which complained bitterly of the treatment accorded "our nationals."

Tito was quoted as saying in a speech to Yugoslavians that "it would be a terrible tragedy if we should have to fight again for what we have already won in this war."

According to the Belgrade version of the speech to the Slovene people. Tito called upon the Italians to protect Yugoslavians of general interest. He said that he had persecuted them for centuries.

The people of Carinthia are awaiting their liberation, and on behalf of the Yugoslav government, I assure them that our thoughts have not abandoned Carinthia, which today, unfortunately, must tremble and suffer under a German terror which is clad in another uniform," he was quoted.

Legion Convention To Discuss Means Obtaining Homes

CALGARY, May 28.—(CP)—One of the most important items of business to be considered at the provincial convention of the Canadian Legion, B.C., to be held here June 4, 5, 6, will be the problem of providing suitable housing for the men returning from overseas.

declared R. W. Henderson, provincial vice-president, Sunday.

It is not right that the man who is returning home, he said, should find his family in a place to live and it must make them feel that the fighting in Europe is finished."

FREE SAMPLES OF TREATMENT Stomach Trouble

(Due to Gastric Hyper-Activity)
Well, B.B. says: "I've got the best 22 years' old indigestion, pains and gas after every meal and I found relief with your treatment."

Do I need your medicine, I believe they have done me good. I suffer from indigestion, gastric hyper-activity, heartburn, nausea after eating or slight stomach trouble induced by gas and indigestion. I have now received quick relief. Get FREE Sample of this treatment. (See enclosed literature.) Dares Liberals to Repeat Speeches Given in Quebec

VALLEYFIELD, Que., May 28.—(CP)—William Tremblay, former Quebec labor minister in the 1936-1939 National provincial government, told a Progressive Conservative election rally here yesterday he "challenged" the French-Canadian members of the federal government to repeat in other provinces addresses they have given in Quebec.

While John Bracken, Progressive Conservative national leader, was advocating the same policy "from coast to coast," Mr. Tremblay said the "population in Quebec has already been misled by Liberals only thinking of possible election gains, everything has been done to mislead Quebec."

It has been said that if Prime Minister Mackenzie King had enforced conscription the Progressive Conservative party would be blamed for it and Mr. Bracken had not wanted to do so. Tremblay has already been said to be guilty of "conspiration enforcement," Mr. Tremblay said.

LIBERALS ARE "SUCH LIARS"
"Liberals are such liars that were it not for the fact that the majority knows our Lord was killed by the Jews 2,000 years ago, some would say it was Bracken."

Speaking of the Bloc Populaire, Mr. Tremblay said its supporters wanted to "balance" the Progressive Conservative party to be blamed for it and Mr. Bracken had not wanted to do so. Tremblay has already been said to be guilty of "conspiration enforcement," Mr. Tremblay said.

"I am sure alone can help the different sections of Canada to be profitably developed," Mr. Tremblay added. "I believe that the two races (French and English) must live in peace and harmony. I see no reason why they should not work together for the common good, we must do everything in our power from coast to coast, so that the next generation may say 'we are Canadians'."

ALBERTA RADIO BILL

He cited what recently happened in Alberta where a bill authorizing the setting up of a French-language radio station was first turned down in the provincial legislature.

Mr. Tremblay said, "Although French-speaking Canadians have a right to use their own station in Alberta, a group of fanatics, imagining they were Alberta dictators, said 'those French-Canadians have no right to have their own radio station'."

"French-Canadians in Alberta showed the fanatics they were going the wrong way. They proved that the French language could rightly be used in radio broadcasting on an equal footing with English."

"The fanatics retreated and there was no longer objection to a French-language radio station in Alberta. All this was due to a survey of the situation and to spreading the good word without animosity."

"Can you imagine what would have been the situation if Alberta had been a country instead of being one of the Canadian provinces? We in Quebec would have been the first ones to wage war on Alberta."

It was pointed out here Monday morning that William Tremblay's references to Alberta were hardly accurate. An application was made in a bill introduced in the Alberta Legislature to incorporate the French-Canadian Association of Alberta. This bill proposed to give the association authority to operate a radio station and carry on other activities in the province. The bill was withdrawn after strong objections had been expressed by various provincial organizations. It was withdrawn while being considered in the committee stage.

War Restrictions On Trucks' Speed Now Removed

OTTAWA, May 28.—(CP)—The 25-mile limit on the operation of trucks has been removed and a number of restrictions on retail and wholesale truck deliveries have been lifted. It was announced last night in a joint statement by Ministers Howe and Finance Minister Iltis.

Mr. Howe emphasized however that gasoline rationing for trucks will be continued.

Although most public carrier vehicles, such as moving vans and inter-urban transport, have been exempted from the 25-mile limit, their operations have been subject to administrative restrictions by the transit controller, including regulations governing route and schedules.

Representatives of the town have stated that they need more school

accommodation immediately. This problem has been managed during the war by the many plans that have been built by the government, and these plans will go to big industry to increase their monopolistic power.

GOOD FROM PARLEY
Discussing the world security conference at San Francisco, which he attended as a delegate, Mr. Colwell told his audience not to "cease" from the only one in the clear in the world.

It, although not as much as we'd like. The charter that will be prepared at the conference will be the best that has ever been agreed on at this time charged by the nation's representatives.

WARM DEBATES ARE EXPECTED
Are Expected British House
LONDON, May 28.—(AP)—Cable—After the first election campaign week-end, Prime Minister Churchill meets the house of commons Tuesday with his new "cavalry" government to start what is expected to be the liveliest two weeks' debate during more than five years under his administration.

Withdrawal of the Labor and Liberal parties from the wartime coalition in preparation for the vote expected July 5—the first national election since November, 1933—means that for the first time since Mr. Churchill succeeded the late Neville Chamberlain as prime minister in May, 1940, no holds will be barred on the house floor.

Plan Undertake Industry Survey
OTTAWA, May 28.—(CP)—Arthur Macnamara, selective service director, announced here Saturday a survey to be completed July 1. The survey is directed at industrial centres of employment which women can be trained to do. The survey was decided on after recommendations from L. K. Westman, director of the War Relocation Authority, were presented. What subjects were discussed at the meeting is still a matter for speculation.

Liberals, Tories Said Lacking In Leadership

GLACE BAY, N.B., May 28.—(CP)—Canada should give leadership to the progressive forces throughout the world, and neither the Liberal nor Progressive Conservative party can give this leadership, M. J. Goldwell, national CCF leader, said yesterday.

The Progressive Conservative party cannot give the leadership that the "eyes of the democratic world" look to Canada for. He said the memory of Bonnet's iron heel still lingers in the memories of the working people of this country.

The Liberals, he said, have regimeted and attempted to destroy labor. They have been an old friendly to labor than the Conservatives.

REJECTS COALITION

The CCF would not consider a coalition, and any party that supported the Liberals or the Progressive-Conservatives would be as reactionary as the old parties themselves.

"There will be no coalition. We are going to fight until we win for the things to which Canadians are entitled."

The people of Canada must have purchasing power. If a stable national economy is to be established, these plans will go to big industry to increase their monopolistic power.

WUGOSLAV MISSION TO RETURN HOME
By W. H. HIGGINBOTHAM
Exclusive to The Edmonton Bulletin
LONDON, May 28.—(RUP)—Marshal Tito's military mission in Rome was reported preparing today to go home within a few days, regarding its task as finished.

Rome dispatches said J. Smoljak, head of the mission, refused to answer questions whether the expected departure was connected with the French issue. The dispatches reported the expected departure of the Yugoslav mission still a matter for speculation.

Hopkins, Stalin Confer at Length
MOSCOW, May 28.—(Reuters)—Harry Hopkins, President Truman's special envoy to Moscow, conferred with Marshal Joseph Stalin today when they met in the Kremlin last night it was learned yesterday. The meeting was held for several hours. Averell Harriman, United States ambassador in Moscow, and Vyacheslav Molotov, Soviet foreign minister, were present. What subjects were discussed at the meeting is still a matter for speculation.

Hepburn Gets Booped, Cheered During Meeting

SUDBURY, Ont., May 28.—(CP)—Michael Hepburn, Ontario Liberal leader, was intermittently booed, cheered and interrupted yesterday in an Ontario election campaign address which was followed by a speech from a member of the audience.

Interrupted by members of the audience shouting "what about labor?" Mr. Hepburn said the Liberal party's manifesto "has a colonial bargaining clause with teeth in it."

The Liberal leader in his address referred to provincial CCF leader E. B. Jolliffe's charge that Premier Dew maintained a secret police in Ontario.

WOULD HAVE NO RIGHT

"If these charges are true and can be substantiated, then George Dew has no longer any right to lead the Progressive Conservative party."

He read a statement from Nelson Allen, who was elected CCF member of the last legislature from Essex North and subsequently withdrew from the party, which charged that the CCF "spied" on Allen.

"It would be fitting and proper for the royal commission to investigate these charges," said Mr. Hepburn in reference to the commission which Premier Dew has announced will be appointed to inquire into Mr. Jolliffe's charges.

"The other two political leaders are calling each other liars and I guess I'm the only one in the clear in the world."

It, although not as much as we'd like. The charter that will be prepared at the conference will be the best that has ever been agreed on at this time charged by the nation's representatives.

"Special Attack Corps" Japs Have Last-Ditch Weapon

By ROBIN COOKS
GUAM, May 28.—(AP)—Kamikaze... Since the Okinawa campaign began the Pacific war on Japan's doorstep, voices of Japan have taken little else, indicating strongly that kamikaze is to be Japan's desperate last-ditch weapon.

What is this wanted instrument? Kamikaze means literally "divine wind." In Japan today the term is applied to any number of "special attack corps" members of which are supposed to be pledged to suicidal tactics if necessary to break damage on Allied forces.

During the Leyte campaign seamen first began to notice the quality of Japanese flyers to crash their planes on American ships—hence kamikaze is popularly applied to suicide pilots.

Election Campaign Continues Unabated

The heated campaign leading up to Canada's second wartime election June 11 continued unabated today with the speech-making pace little diminished by a week-end full as most party leaders and candidates rested over Sunday.

Both John Bracken, National Progressive Conservative leader, and J. Caldwell, National CCF leader, campaigned heavily Saturday, with Mr. Caldwell carrying his Maritime tour into Sunday before departing for Montreal to continue his campaign there.

Prime Minister Mackenzie King, who returned to Ottawa Saturday from his western tour and the San Francisco conference, turned to government business. This week he will preside over his first cabinet council meeting since April 19 when he left for San Francisco.

Mr. King will resume his campaign Wednesday with an address at London, Ont. and he is expected to go on to Montreal later this week. Mr. Bracken will speak in Vancouver today while Mr. Caldwell will speak in Montreal tonight before going into Ontario to begin his campaign in that province.

The Bulletin's SPORTS SHOW by Hal Dean

ARROWS didn't lose any ground to the U.S. Signals during the week-end, but they still are a game behind as a result of the 5-2 setback at the hands of Bob Sawyer's nine last Tuesday. The two meet again next Saturday, but Signallers have a date with Yanks in the meantime, the American teams being scheduled to be in the field on Wednesday.

Dave Clayton's club again showed plenty of fight and considerable power with the willow with ducks on the pond, but the defence held badly in the sixth, just about the same as Yanks in the succeeding frame.

Lefty Thomas was liberal with passes, issuing three more than Harry Baldwin, but he spaced the line in fairly well. The Arrow side-wheeler has permitted only two earned runs in the 14 innings he has pitched to for this season.

Baldwin got by nicely excepting for a couple of innings, four hits being allowed in the first and second, but in the seventh, eighth and ninth, he pitched the pair of walks in the latter proved disastrous.

WIDE AND THERE . . .
CHUCK HENDERSON took the wraps off a couple of new uniforms on Saturday afternoon, an American soldier, looked good at second and he came up with a pair of hits, Harry (Hank) Tausen, another RCMP contributor to the first base, finished the game well and he had one single.

Pat Priest, with Yanks in '93, won in a game which was last year. Walter Stephens pitched twice for Signallers a year ago and the previous season was on the Dodger roster. Stephens gave up only two hits in his four innings, but he issued five passes and three of them figured in runs.

Inter-Club Golf Mayfair Counts 50 Points; Country Club, Municipal Tie

Mayfair Golf and Country Club's teams marked up a total of 50 points in the inter-club golf competition for the McMillen Cup yesterday against the Highlands teams. The "A" crew counted 25 of the possible 40 playing at their home course and the "B" squad collected 15 at the Highlands course.

In the other matches, Country Club and Municipal divided the 50,000 Fans See

Wanderers Win

LONDON, May 28.—(CP)—Bolton Wanderers won the league soccer cup by beating Manchester to a 2-2 tie in the second game of a two-game total-point series before 50,000 spectators at Manchester Stadium. Bolton won the first match last week, 1-0.

Lou Nova Scores Fifth-Round Kavo

BOSTON, May 28.—(AP)—Lou Nova, 205, of Los Angeles, Saturday night blasted out Johnny Benson, 197, of Indianapolis, with a two-punch attack after Benson had in the fifth round of their scheduled 10-round feature boxing bout before a skimp crowd of 1,300.

Mechanic building.
Nova, getting under in slow and cautious fashion, took a terrific right on the chin about 12 seconds before the end of the initial frame. He stayed down for nine and appeared going to his corner.

Arrows Keep Pace With Leading Signals

Gallant Simon Is Impressive in Calgary Feature

By LOU DAVIES

CALGARY, May 28.—Gallant Simon, good-looking brown colt from the stable of Louis Graziano of Vancouver, served notice here Saturday afternoon, that he is going to be a factor in all major handicaps during the prize racing season.

Overlooked in the field of eight stars which fronted the Turner Valley handicap, feature of the third day of racing at Victoria Park, the son of Gallator-Happney with 11th Cuban, R. Alonso in the saddle made all the running to easily win the 6 1/2 furlong affair by 4 1/2 lengths.

Depressor, Eastern Star, closed with a rush to beat out Helmi's Pride by half a length for second money. The favored entry of Tecumseh and Hall of Chain finished last.

"P. J. Percy, former Innishall barker, uncovered one of the finest horses of the meeting when he won the 100-yard sprint for three-year-olds in the eighth.

The scoring of an error in first baseman Ed Schuster on the Saturday game was questioned. Following is what rule 70 says in that connection:

"An error shall not be scored against a catcher who attempts to complete a double play, unless he is judged to have committed an error in what rule 70 says in that connection."

EAC Juniors to Practice Tonight

Edmonton Athletic Club junior baseball club will hold a practice at Clarke Stadium tonight commencing at 7 o'clock. Uniforms will be issued and a full turnout is requested as this will be final work-out prior to opening of the league.

ORFU Expands

TORONTO, May 28.—(CP)—President Frank Leonard of Dunlop, Ont., president of the Ontario Rugby Union, announced last night that the Ontario union has been expanded to include teams from London and Windsor and said there is "every hope" of adding two other teams before the June 16 deadline for entry.

Commandos 3-0 Centrals Blank Navy 13-0 To Maintain Perfect Record

Ab Whelpley's unbeaten Central-Aeroliners went on another hitting spree yesterday afternoon in the first game of the City Men's Baseball League doubleheader at Kingsway Park and white-washed HMCS Nonsuch 13-0 to register their fourth straight victory. U.S. Red Cross Commandos struck out Mase 3-0 in the second contest.

The Centrals went to work on Al Young, Fly chucker, in the first inning and marked up four runs. They resumed their hitting in the third and scored two more on a pair of triples and a double.

Dr. Bill and the winners, just coasted along, adding seven more in the fifth, sixth and seventh frames.

Gordon Weeks hurled a nice game for the Centrals to blank the Sailors on six scattered hits.

The second game was much closer with Danny Munaw and Gordon Weeks hooking up in a pitching duel. Weeks only allowed five hits to the Navy's six, but the Commandos kept them well scattered to register the shutout.

A home run after the left field force by Bill Baldwin in the first inning provided the winning run. An error, a single by Gregory Thibault and a double by Walter Zeilman in the sixth accounted for the other two runs.

Following are the box scores:

Central-Aeroliners 3, HMCS Nonsuch 0. AB R H PO A E. Gordon, 2b, 3, 1, 2, 0, 0. Weeks, 1b, 4, 1, 2, 0, 0. Munaw, 3b, 2, 1, 2, 0, 0. Zeilman, 4b, 1, 1, 2, 0, 0. Thibault, cf, 1, 1, 2, 0, 0. Young, 5b, 1, 1, 2, 0, 0. Baldwin, 6b, 1, 1, 2, 0, 0. Total, 22, 13, 21, 8, 1.

Hand Yanks 8-5 Defeat On Sunday

ARROWS bumped the Yanks 8-5 before 5,500 Sunday afternoon fans at Renfrew Park and kept pace with the league-leading Signals which had marked up an 8-4 decision over the Dodgers for three straight in the senior baseball loop.

Elmer (Lefty) Thomas had a slight edge on Harry Baldwin yesterday, yielding nine hits as against 11, but both received well by support at critical times. Opponents were really assisted the Arrows who bunched seven of their safeties in the first and seventh frames.

Norman Carney, who had four for five during the afternoon, drove in three runners home. Columns Burcheled with two for three and Pete Myers hit a pair of home runs in four attempts were high for the Yanks, now twice beaten, the same as Arrows.

Arrows moved out in front in the opening stanza, and were never headed. With one down Ted Samis stopped a single into left field and after Welch struck out Norm Carney came up with his first of four hits, a single into left which sent Samis to the plate.

Ken Samis also hit safely, scoring his brother and ending the home on Maskeiwich's drive into right field. Ken Samis was nailed—Burcheled to Ken Samis—but Umpire Lupul ruled Carney had crossed the plate.

Yanks got one run back in the second on a long single by Pete Myers into right field ahead of Gino Valenti's triple to the home-batter. Valenti was caught at the plate after accumulating a strike, when Baldwin dumped a roller to Thomas.

Arrows counted two more in the third. Baldwin threw Ted Samis out at first but Welch and Norm Carney slashed another single into left. Ken Samis was safe on Ken Carney's error and Welch scored on a wild pitch. Carney raced home on Maskeiwich's long foul fly to pinch Mase. Carney made a fine catch.

John Galvin's double and Ivan Crumley's smash into left gave the Yanks their second run in their half the third, and the U.S. Army boys evened the count in the sixth on a walk to Burcheled, when Crumley's slip at error by Read at third, Ken Samis' had thrown to second and a dropped fly in centre by Ted Samis.

Arrows won the game in the seventh on hits by Carney, Maskeiwich and Finn, walks to Ted Samis and Thomas and errors by Pitcher Baldwin and first-baseman Myers. Yanks threatened in the ninth when Crumley got a life on Pupul's error. Myers singled and Derak lifted a high one to Pupul in the ninth garden.

Arrows' 8-5 victory was a 2-1 win over the Yanks. AB R H PO A E. Carney, 1b, 4, 1, 2, 0, 0. Maskeiwich, 2b, 2, 1, 2, 0, 0. Myers, 3b, 2, 1, 2, 0, 0. Valenti, 4b, 1, 1, 2, 0, 0. Samis, 5b, 1, 1, 2, 0, 0. Baldwin, 6b, 1, 1, 2, 0, 0. Total, 22, 13, 21, 8, 1.

40,000 See Classic Hatch's Favored Uttermost Captures 86th King's Plate

TORONTO, May 28.—(CP)—In familiar, craftsmanlike fashion, a flourishing turf partnership gave an old routine a new twist at Woodbine Park Saturday when Uttermost, flaunted owner-breeder Harry Hatch's Double Blue Silks to a two-length triumph in the 86th King's Plate before 40,000, believed to have constituted the largest crowd in Canadian racing history.

Starting from outside the stall gates against the largest number of starters to contest North America's oldest continuously running event, since King O'Keaner defeated a 22-horse field in 1932, the heavily-backed Uttermost surged from third place at the lower turn under jockey Bobby Watson to complete the nine-furlong race in 1:53.45, a Plate record.

Frank Glin's unheralded Tarian, paying \$2 and \$10.50 after closing at 40/1 on the final line, closed with determination to finish against a neck before Ferry Pilot, owned by the Hulton Brock stable of Oakville, Ont., which paid \$4.85 for show as an entry with the pace-making Fair Play.

Uttermost, giving Hatch his second straight plate triumph and the fifth in a decade, paid \$210, \$2.00 and \$2.40. It was likewise the second straight victory for Rider Watson, who booted Hatch's Acra in first place in 1944. Watson also won in 1941 aboard the Toronto sportsman's Butpath, achieving a Plate triple previously recorded only twice in the 86-year history of the race—by Frankie Mann with Froth Blower in 1923, Queensway in 1922 and Horsemaster in 1934, and by Harry Lewis, Seagram stable rider, just before the turn of the century.

Was Distant to Henchmen

Private Secretary Says Hitler Had Only One Friend in World

Exclusive to The Edmonton Bulletin
BERCHTESGADEN, May 26.—(U.P.)—Adolf Hitler's personal secretary said yesterday the Fuehrer did not have a real friend in the world outside of his blonde sweetheart, Eva Braun.

The secretary, Christa Schroeder, said none of Hitler's henchmen such as Hermann Goering or Heinrich Himmler could be called as his personal friends. He never used the intimate form for "you" in speaking to them. And they always addressed him as "Mein Fuehrer." (My Leader).

Fraulein Schroeder, a husky woman with coarse features, reddish complexion and black hair, was Hitler's number one private secretary throughout the war. She admitted him personally although she considered "he had his weaknesses."

The secretary said that Hitler probably had no more affection for propaganda minister Paul Joseph Goebbels and his family than for bodyguard Ernst R. Hess. He also liked Martin Bormann, because he was a Jew. It was the only other person holding a position similar to his own.

HIMMLER SLOW THINKER
Fraulein Schroeder said Hitler valued Heinrich Himmler more for what he did for him. However, she pictured Himmler as a slow-thinking, unimpressive man who couldn't remember details and talked something like this:

"We'll said something or other to somebody else and they were going to what's the name of that place?"

She said Himmler and deputy Fuehrer Martin Bormann conspired to increase their own power and win increasing control over Hitler. Bormann didn't want Hitler to know the truth, she said. "He gained complete control of the Nazi party. He received all the reports from gauleiters and sub-gauleiters in Hitler only after he dressed them in."

Fraulein Schroeder believed Hitler died in Berlin, as the Nazis claimed. She left the capital on April 29th and came to Berchtesgaden. She took it for granted that Hitler and his leaders would die there. She said, "As far as I know, Hitler still believed he was alive."

DIDN'T KNOW TRUTH
Asked where he got that idea, she replied "I assume he was so brave and so led in by everybody that he didn't know the true picture until he suddenly admitted the war was lost and he said he was going to remain in Berlin. I assume he was body finally told him the truth."

She thought Hitler and Eva may have shot themselves in the bunker under the Berlin Reich Chancellery. "He always said that there could only be victory or death," she said.

Fraulein Schroeder called Hitler "the best boss that one could imagine." She said he was difficult to take decision from and that he used to dictate his long speeches right on the typewriter. However, he looked after his employees, she claimed.

HAD SIMPLE TASTES
The secretary said Hitler, in contrast to his cohorts, had simple tastes. Although the luxury of his Berchtesgaden villa belied that, Hitler had been a vegetarian for 10 years, she said.

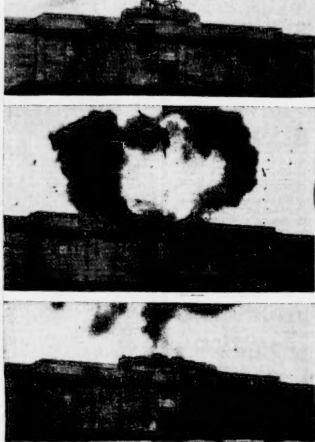

"For breakfast he had oatmeal, sometimes with fruit or chopped nuts," she said. At noon he had soup, then potatoes and a vegetable. At night he had soup, potatoes, chicken, skinned milk, cheese and a vegetable.

He drank only herb tea like peppermint tea, and occasionally he ate dessert like apple preserves. Apples were his favorite fruit. At night, tea after the military conference, we had little pastries. Hitler never drank coffee or real tea which he claimed with nicotine as poison. He didn't like our smoking and we never smoked in his presence."

OPPOSED ASTROLOGY
She insisted Hitler never had anything to do with fortune-tellers or astrologers. "He was very much against that sort of thing," she said.

Fraulein Schroeder was quite willing to talk about Hitler's life until she was asked about conditions in concentration camps. She said she was not allowed to discuss that and her face flushed and she tried to change the subject.

One of the fastest planes in existence today is the magnificent jet-propelled P-51 "Shooting Star," which can attain a speed of between 300 and 400 m.p.h.

THE NAZI SWASTIKA IS KAPUT—At Nuremberg, Germany, the symbol of the Nazi party is being destroyed. The swastika is a symbol of evil and is being destroyed in a ceremony at Nuremberg.

District News in Brief

LACOMBE—The May 21 holiday was celebrated here in a sports meet at the fair grounds. More than 2000 persons attended the event and saw softball games, basketball games, and various races. There were two classes entered in the softball tournament, with the Lacombe intermediate school winning the 800 prize in the rural and public school event, and the Red Deer 78th Battalion, RCA, winning the prize money in the high school and open event. A smart ball club from Lacombe triumphed in the basketball tournament.

LACOMBE—Art Park defeated Don Jackson 3 and 1 to win the championship fight in a golf tournament. The event was held at the local course for school students.

HARDISTY—Mr. and Mrs. C. P. Postwaite have received word that their son, Jeff, a prisoner of war since D-Day, is now safe in England.

LLOYDMINSTER—Capt. Victor Marshall, eldest son of Mr. and Mrs. Percy J. Marshall, left Regina Saturday to return overseas. Capt. Marshall returned to Canada about two months after seeing his parents. He is now in Belgium.

CORONATION—The Garden Club elected the following officers at a recent meeting: president, Opal Duke; secretary, Emily Schaefer.

SETTLER—Freemason chapter, G.O.L., held its regular meeting at the home of Mr. E. J. Angus, high regent. Mrs. W. M. Angus presided. The high regent, Mrs. W. M. Angus, presided over the meeting.

SETTLER—Members of the Settler Rotary Club at their weekly luncheon meeting Monday, Oct. 23, was not small after the dinner.

SETTLER—The Rotary Club of the Settler Rotary Club at their weekly luncheon meeting Monday, Oct. 23, was not small after the dinner.

SETTLER—The Rotary Club of the Settler Rotary Club at their weekly luncheon meeting Monday, Oct. 23, was not small after the dinner.

Drew Describes

CCF Charges as Screen of Lies

Continued from Page One

six years, a sign outside the building, the sign has on it the words: "Ontario Provincial Police, 18 Surrey Place."

OFFICIAL IN CHARGE
The Ontario Provincial Police, 18 Surrey Place, was the official in charge of the investigation.

Col. Drew said Osborne Dempster had been appointed a constable on the Ontario Provincial Police force by the Premier government, July 30, 1940, and had been in the force since that time.

Col. Drew said the records referred to are presumably the records of a special department of the Ontario Provincial Police, which was set up under Inspector A. S. Wilson, and which was in the force in the early days of the war.

RECEIVED NO REPORTS
"I say with the utmost emphasis that I received no report from him at any time and never had any contact with him," Col. Drew said.

"The statement is equally false that at any time I instructed, or anyone under my authority instructed, Osborne Dempster to communicate any information to anyone outside."

Col. Drew said that the "intimate and reassuring" letter on the letterhead of Ontario House, London, to M. A. Sanderson, which was sent to the Ontario House, was not a letter from him.

The Ontario premier said, "That statement of Mr. Joffe is the most fantastic lie of all. No such letter was written. He added there was no Ontario House and no such letterhead on the date which he said had been given by Mr. Joffe—Dec. 23, 1943—and that on the evening of Dec. 29 he drew was leaving London to fly back to Canada 'long ahead of any mail that might be sent.'"

A Royal Commission will be appointed immediately to inquire into the charges against Mr. Joffe. The commission will be asked to ascertain whether or not Osborne Dempster or any other police official has exceeded his authority.

CHARGES ARE FALSE
But I want to leave no doubt on this score. A question of whether a police officer has gone beyond his duty and if so, what the nature of the charges is, is something which the police have to decide. The police have to decide whether or not the charges against me as exposed by the 'factual record'.

The premier said that so far as he is aware it is the first time anyone occupying a responsible police position in any British country has been so charged. The charges are based on a charge upon a man of deliberate falsehood.

A question must arise in the mind of every one who heard or read the charges. Why must it be just made these amazing statements little more than a week before the date of the election?

Garfield Anderson, CCF member of the legislature for Fort McMurray, has been reported in the press to have said he knew of no investigation into the charges against Mr. Joffe more than a year ago. That was true, why had nothing been said for more than a year? Why had nothing been said while the legislature was in session this year?

"You know the answer. If the statement had been made in the legislature that the government was maintaining a secret police policy, the charges would have been made then and there. Instead of that, Mr. Joffe waited until he had been provided free time over the radio so that he could make his slanderous statements to the people of Ontario in the hope that it would be impossible for us to catch up with the lies which he has given us wide circulation."

The real issue in this election was clear before the New Mr. Joffe made it clearer still by far. The issue is between freedom and state socialism, with all its right to divine to gain power. The historical issue is between freedom and state socialism. We want no party leaders here.

PLANS SUBMIT 'PROOF' WITHIN NEXT FEW DAYS
TORONTO, May 28.—(U.P.)—Ontario CCF leader E. B. Joffe said in a statement last night that the persons whose evidence estimates the truth of the government will be presented to the people of this province within the next few days.

Replying to Premier Drew's radio address Saturday night, the CCF leader said he would submit evidence to the people of this province within the next few days.

Mr. Joffe said Premier Drew had made much of the fact that Capt. W. J. Osborne Dempster (named by the CCF leader as head of the alleged government secret police) was employed by the provincial government.

Mr. Joffe said that the CCF leader had said that the persons whose evidence estimates the truth of the government will be presented to the people of this province within the next few days.

Mr. Joffe said that the CCF leader had said that the persons whose evidence estimates the truth of the government will be presented to the people of this province within the next few days.

Mr. Joffe said that the CCF leader had said that the persons whose evidence estimates the truth of the government will be presented to the people of this province within the next few days.

Mr. Joffe said that the CCF leader had said that the persons whose evidence estimates the truth of the government will be presented to the people of this province within the next few days.

The premier's assertion that this was "exactly the same" as the old anti-subversion law was a "transparent attempt to escape his own responsibility."

Premier Drew had "deliberately tried to mislead the public" by referring to the United States "Ontario Provincial Police, 18 Surrey Place."

There was a sign there, where anybody could see it, but Col. Drew seeks to disguise the fact that the sign was the offices of the secret police police at the rear of the building, hidden from sight with a separate inside staircase, inaccessible from the street.

Mr. Joffe charged that he had been "intentionally misquoted" with regard to his reference of a letter from the premier to M. A. Sanderson. Toronto investigative dealer, The premier had alleged the CCF leader gave the date of the letter as Dec. 1943. What he had given was the exact date "in which one of Sanderson's advertisements was composed in the Gattapio office."

SUED FOR LIBEL
Mr. Sanderson, together with the Toronto Telegram and the Ontario Globe and Mail, was sued for libel by 136 CCF candidates in the Jan. 1, 1944, municipal elections, during which campaign he issued advertisements in those newspapers. On his Thursday night broadcast, Mr. Joffe charged that Premier Drew and Sanderson, who had taken part in a campaign to "blacken and defame" the CCF.

"This misquotation by Col. Drew cannot be excused and must have been deliberate," Mr. Joffe said.

The "joker" in the premier's speech was his promising of a commission of inquiry to determine whether or not Osborne Dempster or any other police official has exceeded his authority.

Premier Drew's assertion that "A question of whether a police officer has gone beyond his duty and if so, what the nature of the charges is, is something which the police have to decide," Mr. Joffe said, "is a clear admission by the premier that he himself knew of Dempster's activities, but in planning to disclaim any responsibility for them."

The CCF leader repeated that he was "entirely satisfied" that the Ontario premier had reported directly to the premier and to the cabinet.

LOOKS FOR LEADERSHIP
"But where in Canada is the leadership that carried our troops so valiantly forward? Why have we not in Canada the same kind of leadership at home that was given overseas?"

"If you want to find Canadian leadership in war, you must look somewhere else for it—must look in Canada under the present government. If you want to know what is dictating Canada's war effort, you have to look beyond Canada."

"Look at the Pacific war. As we read the newspapers from day to day, Canada's war policy in the Pacific theatre appears as a gigantic picture—an official statement here, in conflict with another statement there."

"Mr. Joffe said, CCF leader, returning from the San Francisco conference, said in Ottawa last Thursday that the American said a Canadian division serves with their rifles and not as a separate formation."

GAVE NO AUTHORITY
"The gave no authority for his remarks, although it was reported to be based on impressions gathered at San Francisco," said Mr. Joffe. But you and I, other Canadian people, are allowed to go on guessing as to what really was our war policy in the Pacific theatre and by whom that policy is being dictated."

"Mr. King's political career was built up on his promise to transfer the Canadian foreign policy from London to Ottawa. That apparently wasn't enough. He now is determined to transfer our foreign policy from Ottawa to Washington."

Mr. King had asked that he be returned to power so he could transfer the Canadian foreign policy from London to Ottawa. That apparently wasn't enough. He now is determined to transfer our foreign policy from Ottawa to Washington."

Mr. King had asked that he be returned to power so he could transfer the Canadian foreign policy from London to Ottawa. That apparently wasn't enough. He now is determined to transfer our foreign policy from Ottawa to Washington."

Mr. King had asked that he be returned to power so he could transfer the Canadian foreign policy from London to Ottawa. That apparently wasn't enough. He now is determined to transfer our foreign policy from Ottawa to Washington."

"We are trying to do the best we can," Mr. Joffe said. "No one was worse off today because of the fact that the farmer has received a good share of the nation's income. When farmers did not receive a just share of the nation's income, they could not afford the goods that industry produced. Industry had to shut down and this brought unemployment."

Mr. Bracken said that the beef industry, which is one of the most important in the country, should be respected and never closed again.

"As long as applied to pure herd raisers should be changed. When a man sold part of his herd because of a lack of feed or because of a lack of feed, he should be rewarded as a good farmer for that year. Only annual increments in the herd should be rewarded as income and not the sale of the herd."

ASKED QUESTION PERIOD
As Mr. Bracken concluded his speech in the audience asked: "What have your friends Culliville House (mayor of Montreal)?"

"What are your relationships with the Blue Association?" Mr. Bracken asked the questioners to come away from the back of the hall and approach the platform and he would answer the questions. No one came forward and the question was unanswered.

PRESENT TAX SCALE SAID TO BE TOO HIGH
LACOMBE, Alta., May 28.—(U.P.)—Mr. Bracken, leader of the Progressive Conservative Party, said Saturday that present day taxes were so high that they were discouraging enterprise and workers from working full time.

The Progressive Conservative party believed that taxes should not be so high as to discourage enterprise in enterprise that gives employment to the workers. Mr. Bracken said that the party stood for a political rally here.

His party stood for the best social security program that could be provided without taxing taxes to the point where they discouraged workers from working a full week, said Mr. Bracken at a political rally here.

HOME DEFENCE ARMY
The home defence army was being kept in Canada for "political reasons," only said Mr. Bracken. His party would not ask men who were fighting in Europe to go to the Pacific. Home defence troops would be sent.

United States troops who fought in Africa and Europe were not being sent to the Pacific.

Dealing with agricultural policies, Mr. Bracken said farmers in this section of the country should go in for farming.

The present government's policy was discouraging farmers from switching to livestock production and was encouraging them to produce food for export.

FINANCIAL BACKING
At Smith, Progressive Conservative leader, said that the government was claiming that Mr. Joffe was a traitor.

Mr. Joffe said that the government was claiming that Mr. Joffe was a traitor.

Mr. Joffe said that the government was claiming that Mr. Joffe was a traitor.

Bracken was backed by the big financial interests in Toronto and Montreal. "Let me tell you there is not a five cent piece behind any Progressive Conservative vote in Alberta or other place than what was raised right in that province," said Mr. Smith.

The Progressive Conservative party would not ask men who had fought in Europe to bare their brains to Japanese bullets with \$3,000 or \$5,000 home defence troops still were in the line, he said. The party would send the home defence troops to the Pacific.

"You don't agree with us on this policy, then vote against our candidates here," said Mr. Smith. "We don't want your votes on any false promises."

Prime Minister Mackenzie King had refused to put land for air ports at the disposal of Britain because he wanted the forces of any country stationed in Canada to be under the control of the Dominion government. Mr. Smith warned if some people in the country would be alive today if Mr. King had not refused Britain's request.

YOUTH is speeding to better living

It will be in the hands of our Youth: It will be in good hands, as has been demonstrated in their fight to maintain our freedom.

For 90 of these crucial 200 years, The Bank of Toronto has itself taken an intimate and most vital share in the growth of this country. It has, since before Confederation, consistently aided with friendly counsel and financial assistance, those men and women whose thrift, labour and vision have made Canada.

Much has been achieved through man's progress in science under the impetus of free enterprise during the last 200 years. To protect this freedom now—is to protect Canada in the future... because when you destroy the individual's freedom you destroy initiative, that mainspring of progress.

New ideas and the courage to crystallize them into action, are a dominant characteristic of Canada's young men and women—and the problems of better living in a better post-war world will be in the hands of our Youth.

For 90 of these crucial 200 years, The Bank of Toronto has itself taken an intimate and most vital share in the growth of this country. It has, since before Confederation, consistently aided with friendly counsel and financial assistance, those men and women whose thrift, labour and vision have made Canada.

Work is Best Remedy For Any Type of Worry

Occupation Replaces Rest Cure and Gives Victim No
Time for Brooding; Day of Good to Bed and
Weeping Has Passed

A patch of silver lining to the war cloud is afforded by the fact that the general public is being made aware of the value of work as a remedy for whatever ails them. Occupational therapy is taking the place of rest cures and instead of putting patients who have had tired feeling to bed, doctors are advising them to get busy and do something.

None of the accounts of the miracles being performed by the doctors on the war front have been more interesting and significant than the reports that the cures that are being made among the sick and wounded men by giving them something absorbing and worth while to do, something that takes their minds off their misfortunes and makes them feel that life is still worth living.

WEAVING
Time was when the specific for every trouble, from tummy ache to a broken heart, was to go to bed and stay there, which gave you a sure, long, uninterrupted time to dwell upon your pains and make the most of them, and to keep your wits addled with tears because weeping was the only activity in which you could indulge. It was then that the burden of chronic invalids who were bedridden for years, and who killed off their families waiting upon them, and the melancholy Grandmas and Aunties who never "got over" anything or took off their mourning.

This substitution of a job for couch as a cure-all is of particular importance to women, because they suffer, both physically and mentally, in idleness. Kinds of work for women than all the germs in the universe.

Every doctor's office is crowded

with middle-aged women with strange and fearsome symptoms that suddenly developed after the last of their children got married and left home. Up to that time they had enjoyed robust health and been as busy as bees having babies, rearing families, doing housework, sewing and doing the million things that make a home comfortable.

At first the children were gone and there was practically nothing to do that they became afflicted with imaginary cancers and tuberculosis and heart disease. All of us know women who have been invalids for years who have risen from their sick beds when they lost their money and have gone to work keeping boarders and men, hale and hearty ever after.

And work is the one specific that never fails for attaining happiness. It is the women who are told to do except to worry over the loss of their husbands' affections, losing their looks or not being able to have a new car who are the fretful, peevish, discontented ones.

The women who are so busy they haven't time to tell you their troubles are the happy ones. And to be sure, the hard, honest-to-god labor that takes the strength of their hands and every ounce of brains they have to turn out a work white job, whether it is cooking a good dinner, rearing a family or flying an airplane. Many a woman with her husband or her son in the front would not have stood up to a work white job, whether it is cooking a good dinner, rearing a family or flying an airplane.

Many a woman who has been sent on humbly as a punishment, but if so, the Creator repented and made our greatest blessing.

THESE WOMEN—"Now what else did he do while I was away?"

Personal Health Service

By WILLIAM BRADY, M.D.

ANYWAY IT ISN'T JUST NERVES

Everybody knows or should know that irritation, pain, anxiety, worry, fear and anger spoil the appetite and retard or arrest the motor and secretory processes of digestion. Hyperchlorhydria (excessive acidity in stomach), peptic ulcer (gas, gas or stomach and duodenal ulcer), diabetes, hypertension (high blood pressure) and colon derangement (commonly called "nervous colitis") are familiar examples of ailments which are psychosomatic in meaning, mind, some meaning body.

Recently, against my better judgment, I took time out to read a few of the textbooks the medical and book manufacturers are turning out feverishly, on the subject of Psychosomatic Medicine. The one that I might find something to add to my five-foot bookshelf.

Having carefully examined the books I got stuck with, I am of the opinion that there is more solid meat in that stuff than in Darwin's Expressions of the Emotions in Man and Animals and Canon's Bodily Changes in Pain, Fear and Grief. The two new classics should be on every man's five-foot bookshelf.

In the talk about what to do about hypertension (high blood pressure) I mentioned recently a lady who, with hypertension, was told, namely, have complete health examination by the best physician at least once a year, re-

cently, against my better judgment, I took time out to read a few of the textbooks the medical and book manufacturers are turning out feverishly, on the subject of Psychosomatic Medicine. The one that I might find something to add to my five-foot bookshelf.

City Council Plans to Review Housing Scheme

Details of negotiations carried on between the city commissioners and representatives of the provincial government relative to the moving of huts from Dawson Creek, B.C., to provide 400 family dwelling units in Edmonton will be submitted to city council Monday night.

The tentative agreement reached between the representatives of the two governments has been approved by the provincial government, and the city commissioners have communicated to the provincial government an agreement for an indication whether the terms submitted represent the province's offer to the city.

The commissioners state that if the terms outlined are acceptable to the provincial government they are prepared to recommend to city council that approval be given to arrangement.

400 FAMILY UNITS

The plan proposed by the provincial government would secure sufficient huts and other facilities at Dawson Creek, together with sufficient supplementary dwelling pictures from Whitehorse, to meet approximately 400 family dwelling units in Edmonton.

Any portion of the 400 units, up to a limit of 200, may, before commencement of work, be assigned by the province to other municipalities.

It was agreed also that the whole undertaking is to be financed by the province, up to an expected \$500,000, and a maximum of \$1,000,000, with interest at three per cent.

The dwelling units at three per cent of lease to be agreed to in the following order of priority:

1. To some 100 family dwellings which may be made available by agreement between the province and the city to returned married veterans attending University.
2. To returned married veterans having established residence in Edmonton previous to enlistment.
3. To returned married veterans having established residence in the Province previous to enlistment.
4. To other returned married veterans.
5. To other residents of Edmonton.
6. To others.

ARCHITECTURE DETAILS

Details of architecture and construction are to be agreed to by a joint architectural committee, but in general the buildings proposed are to be erected in multiple units—apartments, bachelors, etc.—suitable for detached and landscaped, comprising at least living room, bathroom, kitchen, or kitchenette, and one or two bedrooms.

General construction work is to be let to one firm satisfactory to both parties on a fixed fee basis, each firm to have complete control over all details of work, including demolition, transportation and re-erection.

Upon completion of construction all details of administration, including renting and collection of rent and maintenance, and minor improvements, are to be handled by the city.

All rental collections will be deposited in a special fund, from which wherever shall be paid each half year the following: maintenance, insurance, repairs, minor improvements and out of pocket administrative expenses (other than rent collection) an amount in lieu of taxes, and the city of \$50 per annum per dwelling, total approximately \$1,000 per annum interest on unpaid principal advanced by the province, instalments on account of principal on the sum advanced by the province, as follows:

Year	% of original principal (paid 1945)	Amount (assuming 1945 prices)
1	2.5	25,000
2	2.5	25,000
3	2.5	25,000
4	2.5	25,000
5	2.5	25,000
6	2.5	25,000
7	2.5	25,000
8	2.5	25,000
9	2.5	25,000
10	2.5	25,000
Total	25	\$250,000

Any remaining balance in hand at the half year is to be applied on the loan, future instalments of principal which shall be correspondingly reduced.

Any deficiency in the total amount at the half year is to be made up by the province and city equally out of general funds.

TO SET YEAR

The first half year shall end at a date to be agreed upon (instance as all dwellings will not become available, producing a surplus date).

At the end of 10 years the city shall have the option of:

1. Renewing the agreement for a further term of 10 years.
2. To the approval of the province, in the event of any extension the same rights of termination shall apply at the end of each year as are herein provided for at the end of 10 years.

Disposing of the buildings and contents by sale, or by lease, or otherwise, in which event the city shall pay the province the amount owing on principal plus one-half the net proceeds of such disposal in full settlement.

The city shall have the right at any time of acquiring property outright upon payment to the province of the balance owing on principal plus all amounts outstanding to the province.

Certain subsidiary rules not provided for in the foregoing will be provided for by the city. These rules include provisions for the town and office staff, construction of streets and sidewalks, and in installation of certain of the city utilities to the nearest point on the site. The school bus movement will probably require to furnish additional facilities, considerable capital expenditure and increased annual operating cost.

Grain Position Is Promising Minister Says

On the whole the Western Canadian grain crop is late but promising and the present grain situation is marked by a steady and large commercial disappearance of all grains. Hon. James A. Macdonald, minister of trade and commerce stated here Monday.

He said that the steady and large commercial disappearance of all grains assured that the statistics at the end of the crop year, July 31, would be improved.

In a period of war, security requirements take precedence over commercial considerations and it is a good policy to carry an abundance of food and feed grains, he said.

With the end of the war in Europe, however, it becomes advisable to reduce marketable grain stocks to reasonable figures that will not duly influence the price levels. This process can be said to be well under way.

At the present time, Canadian wheat and flour comprises more than half of the total grain acreage in the Atlantic to meet the needs of the United Kingdom and Europe.

With many other food products in scarce supply, the size and availability of Canada's grain stocks will be a major factor in overseas rehabilitation. Several European countries bought stocks of Canadian grain soon after their territories were overrun by the Germans and have carried these supplies for years at their own expense waiting for liberation. This grain is now being shipped overseas in volume to meet present needs.

URGENT DEMAND

"The broad and urgent demand for food products at this time also indicates the soundness of the diversified production program encouraged by the government," he said.

There is an overall scarcity of meat and other energy foods in Canada. Diversification of effort to the production of feed grains, live stock and live stock products is essential.

On the whole, the new crop is late but very promising. As usual, there are some parts of the west which are not as well favored as the area along the foothills, south of the prairie along the Macleod and Alderley lines, and through Lethbridge to the border of the prairie during May have been especially plentiful. Over most of the province security and ample rains to reward their efforts.

The force commander returned to his Air Force Division headquarters near here today from a few days' leave in London and Paris and the first he knew of the appointment was a story in the army newspaper. The Maple Leaf Garrison battalions are arriving from Aldershot, England, and are concentrating in Holland in preparation for the reconstitution of the occupation force.

Over the Threshold . . .

Store Opens at 9:30 a.m., Closes at 5:30 p.m., Except Wednesday, 9:30 a.m. to 12:30 p.m.—To Call EATON'S, Dial 9-1-2

During the last three weeks, there has been a tremendous overseas movement of wheat and flour and this has now broadened out to include oats, barley and even rye. The interior movement of grain has quickened to take care of the increased seaboard loads. Shipments of grain down the Great Lakes passed the 100 million bushel mark on
